## FIRST JOB

### David Peterson

**President and chief executive officer,  
Peak Capital Investment Services LLC**

■ **First job:** law clerk

Peterson began his law career as a clerk, working for a judge in Colorado Springs.

His duties involved conducting large amounts of legal research pertaining to cases and drafting orders for the judge's signature. It could be tedious work, but Peterson said he enjoyed the process.

"I was lucky enough to work for a judge that had an incredible amount of knowledge and integrity," he said. "One of the biggest things I learned was to make sure I knew all the facts. This has carried over to my current work as a financial planner."

Peterson added his background in law has allowed him to provide a service to his clients others may not receive elsewhere.
